NINA FARRÉ

Nina Farré ha mosso i suoi primi passi come designer in india, imparando antiche tecniche manifatturiere che le hanno permesso di realizzare in seguito effetti grafici originali e vari. Come designer per la moda e l'arredamento, Nina Farré ama esplorare molteplici stili grafici: questa libertà e questo mélange rendono il suo lavoro molto riconoscibile e al contempo difficilmente schematizzabile. Nel 2016, Nina Farré ha sviluppato un concept di disegni su pietra bianca del mediterraneo, grazie al quale è entrata in contatto con Devon&Devon.

Nina Farré took her first steps as a designer in india, learning the ancient manufacturing techniques that she uses to create a variety of original graphic effects. As both a fashion and interior designer, Nina Farré enjoys exploring a range of graphic styles: this freedom and eclecticism makes her work immediately recognizable and, at the same time, elusive to categorisation. In 2016, Nina Farré developed a concept for designs using the white stone of the mediterranean, through which she came into contact with Devon&Devon.

Non sono infiammabili, non combustibili e sono privi di nichel.

ORDINI

Assistiamo il cliente durante la fase di progettazione e realizzazione dei propri ambienti.

Le carte da parati si ordinano inviando il rilievo metrico delle pareti da rivestire. Sarà nostra cura restituire al cliente una proposta grafica e relativo preventivo di spesa. È fondamentale che le misure delle pareti siano chiare e precise.

In presenza di porte di grande formato o portefinestre, non verrà computata la parte centrale interna a queste. Le finestre invece seguono il principio del vuoto per pieno, per cui verranno stampate per intero per dare continuità nella parte sopra e sotto.

CONSIGLI DI POSA E AVVERTENZE

Le carte da parati Devon&Devon si posano su ogni tipo di superficie purché prive di qualunque imperfezione strutturale.

Per facilitare la comprensione del disegno in fase di posa, i pannelli vengono forniti numerati. Per l'installazione raccomandiamo di rivolgersi a personale altamente qualificato e specializzato, e di utilizzare colle idonee alla superficie di destinazione. L'uso della carta da parati è possibile anche all'interno della stanza da bagno, ma con alcuni accorgimenti: è sconsigliata l'applicazione negli ambienti doccia mentre è possibile applicare la carta da parati in altre pareti del bagno purché non siano a diretto contatto con l'acqua.

Raccomandiamo inoltre, prima della posa, di controllare attentamente il materiale ricevuto con la spedizione dell'ordine: non saranno infatti accettate contestazioni di sorta a materiale posato.

GENERAL TECHNICAL SPECIFICATIONS

Devon&Devon Wallpaper Collection is a high-quality, environmentally-friendly product designed to have the lowest environmental impact possible.

The wallpaper is printed on the top of the vinyl base and on the back of a 350g nonwoven (TNT) sheet, which guarantees high stability during application and removal. The paper can be cleaned easily with a damp cloth (any abrasive product should be avoided), is flame-retardant, does not shrink or distort. It does not contain any heavy metal compounds. It complies with regulations relating to permeability and water vapour and belongs to fire class rating B-s2,d0. Thanks to their high quality, they are ideal for covering small and large areas. They do not require hazard labels as per the EU 1999/45EC directive.

Devon&Devon wallpaper are cut using automatic cutting systems that guarantee their perfect matching during laying. The inks possess certificates of excellence which guarantees the utmost respect for the environment, as well as guaranteed the origin of the raw materials and the safety of the product when being used. They are unflammmable, non-combustible and nickel free.

ORDERS

We assist our clients throughout the process of designing and creating the ambience in which the wallpaper is to be used.

The wallpaper should be ordered by sending the metric survey of the walls to be covered. We will then send the client a graphic proposal and related cost estimate. It is essential that the wall measurements are clear and precise.

In the case of large doors their internal central part will be not take into consideration for the graphics nor the order. Windows instead follow the total volume (inclusive of dead freight) principle, and will therefore be printed in their entirety to ensure the continuity of the design in the parts above and below.

RECOMMENDATIONS AND INSTRUCTIONS

Devon&Devon wallpaper can be applied to all types of surface, as long as they contain no structural imperfections.

To facilitate the understanding of the design during installation, the panels are supplied numbered. For the installation we recommend contacting highly qualified and specialized personnel, and to use glues suitable for the surface in which the wallpaper is to be used. The wallpaper can also be used inside bathrooms, but with certain precautions: we advise you not to apply the wallpaper in shower areas, while it is possible to apply it on other walls of the bathroom provided that they are not in direct contact with water.

Before the installation, we strongly recommend to check the goods received once the order has been delivered; we cannot accept any claims once the materials have been installed to the walls.
